

Amendments to the Specification

Please replace paragraphs [0100] – [0108] on pages 242 – 243 of the application as filed with the following:

- [0100] Another aspect of the invention is a pharmaceutical composition comprising a compound according to any ~~one of paragraphs [0024]–[0099]~~ of the preceding embodiments thereof and a pharmaceutically acceptable carrier.
- [0101] Another aspect of the invention is a metabolite of the compound or the pharmaceutical composition according to any ~~of the preceding embodiments thereof, one of paragraphs [0024]–[0100],~~
- [0102] Another aspect of the invention is a method of modulating the *in vivo* activity of a kinase, the method comprising administering to a subject an effective amount of either the compound or the pharmaceutical composition according to any of the preceding embodiments thereof, ~~paragraphs [0024]–[0100],~~
- [0103] Another aspect of the invention is the method according to the preceding paragraph [0102], wherein the kinase is ALK.
- [0104] Another aspect of the invention is the method according to the preceding paragraph [0103], wherein modulating the *in vivo* activity of the kinase comprises inhibition of said kinase.
- [0105] Another aspect of the invention is a method of treating diseases or disorders associated with uncontrolled, abnormal, and/or unwanted cellular activities, the method comprising administering, to a mammal in need thereof, a therapeutically effective amount of either the compound or the pharmaceutical composition as described in any of the preceding embodiments thereof ~~one of paragraphs [0024]–[0100].~~
- [0106] Another aspect of the invention is a method of screening for modulator of ALK, the method comprising combining either the compound according to any of the preceding embodiments thereof ~~one of paragraphs [0024]–[0099]~~ and at least one candidate agent and determining the effect of the candidate agent on the activity of ALK.

[0107] Another aspect of the invention is a method of inhibiting proliferative activity in a cell, the method comprising administering an effective amount of either the compound or the pharmaceutical composition according to any of the preceding embodiments thereof ~~one of paragraphs [0024] [0100]~~ to a cell or a plurality of cells.

[0108] Another aspect of the invention is a method of making the compounds or pharmaceutical compositions according to any of the preceding embodiments thereof ~~one of paragraphs [0024] [0100]~~.
